The Pyramid of light

This pyramid of light is the first platonic solid associated to the fire element, a pyramid in basis 3, a tetrahedron. It is a shape in 4 measurements with **4 summits** and a center of gravity.

Therefore, there are 4 axes (W, X, Y, Z) that join each summit to the gravity center (G). In its gravity center a phenomenon commonly called "waves of shapes" and more exactly broadcasts due to the shapes is created.

This phenomenon produces a field of energy of a high quality of silence, of emptiness and of a minimum radiance of 300 meters. This field of energy carries the information of the perfection by the presence of the report of the gold number in its shape and in the information of the fire / light element.

In the center of gravity of the pyramid is the point of the most powerful energy. When this point is located inside a body, the phenomenon will act on the totality of the body.

It is necessary to understand that our first results are indications of ways of research to develop. In order to equip the researchers, we market pyramids of light. The purchase and the use of the pyramid are open to all under the condition to adhere to our ethical charter.

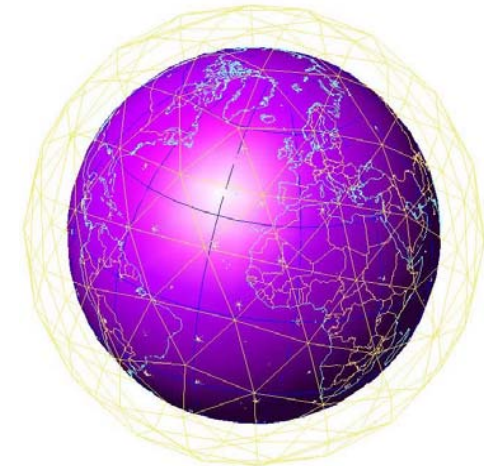

Our research indicated us that the effect of the phenomenon has an influence on:

- Ⓞ The rate of germination of the plants
- Ⓞ The conservation and the vitalisation of food by the sensitive crystallization
- Ⓞ The électrovital field by the Kirlian effect
- Ⓞ The reduction of radioactivity
- Ⓞ The vibratory rate of the environment
- Ⓞ The state of serenity of the humans
- Ⓞ The capacity of evolution of the human conscience

It is a tool for:

- Ⓞ Personal development
- Ⓞ Chromotherapy (use of 9 filters of color).
- Ⓞ Luminotherapy.
- Ⓞ Géobiology (cleaning and elevation of the places)
- Ⓞ Energizing guidance
- Ⓞ Ascension facilitator

Installed in 5 minutes, the pyramid is a well of light, a temple, a passage to the spheres of light.

The Pyramid of Light and the human being :

Once seated in the center of the pyramid, you will experiment through your interior feeling, the phenomenon of the broadcasts due to the tetrahedron of light. It is worth all conferences!

Usually, the experience includes 3 phases of about 10 to 15 min. each:

1. Relaxation and centrage in the heart.
2. Energizing harmonization and cellular reorganization.
3. Multi-dimensional experience of the Silence of the Presence.

This last experience is not foreseeable. It takes place when the mental let loose.

A session in the pyramid :

- 1. Facilitate the state of well-being and meditation.
- 2. Awake the perceptions to the energizing centers
- 3. Fluidify the energizing / luminous circulation.
- 4. Harmonize the interior consistency.
- 5. Dynamise the column of Life (Kundalini).
- 6. Encourage the integration of lights'frequencies.
- 7. Develop the conscience of the being and his multi-dimensional reality.

Through the associating of the filters of color and the Téos's meditations, the pyramid accelerates your evolution in the sweetness of love.

There, you can receive an energizing harmonization or can simply experiment the pyramid of light. For this, reserve a session during an exhibition or contact one of the numerous owners of pyramids (130) by consulting the page of localizations on the Web site. There are many pyramids in 36 departments of France, in Belgium, in Switzerland, in Germany and in the Dom / Tom at 12/05/2009.

We consider the pyramid like a facilitator of ascension, an accelerator of evolution, an amplifier of shapes thoughts, a dimensional passage with the spheres of light. It is necessary to understand that it will never do the work in your place but it will help you to do it.

For experienced people, it becomes possible to be in the service through times, space and the different plans in their own field of reality as well as in the one of the collective while using their thoughts'focus and the power of the verb.

We invite you to consult the 15th news bulletin. It explains in a more accurate manner the applications of conscience. You can also read users' testimonies and the 104 key of the keys of Enoch by Doctor Hurtak on the internet site. We are at your service for all complementary informations.

The Pyramid is also a non-profit association, an independent research group, an ethic to the service of the knowledge and life. It is a logistical, fiscal, legal, economic and financially autonomous support equipped with a commercial tool. The president/founder, Jérôme Boujon (JB), wishes to form some teams to deepen the knowledge of the phenomenon of the broadcasts due to the shapes and to assure the diffusion of the pyramids in light in the world. In addition, the association has for objective to focus competences, the alternatives, the researchers in an atmosphere of peace and liberty. We also work on agriculture biodynamic, the orgone, the generators of pulsed electromagnetic frequencies, the radionic, the radiesthetic etc. The essential of our servicet is the alchemy of the spirit.

The basis of light" The Orionideses": We wish to buy a property in the 47 to establish a beaming light pole there on the global grid. It will be a place of welcome, a center of research, an unit of prototypage and productions. I (JB) wish to live solidarity of researchers, inventors and therapists bio-vegetarians there. In the conscience of the evolution and the sharing, there you will be welcome !

You can help us financially to construct this global service pole. **Thank you for your grants**, for your holds of parts and your contributions in checking account. **Download the complete file on the internet site.**
